

The road to well-being starts with a smile

Guardian's dental app helps make it easy to understand and use your dental benefits

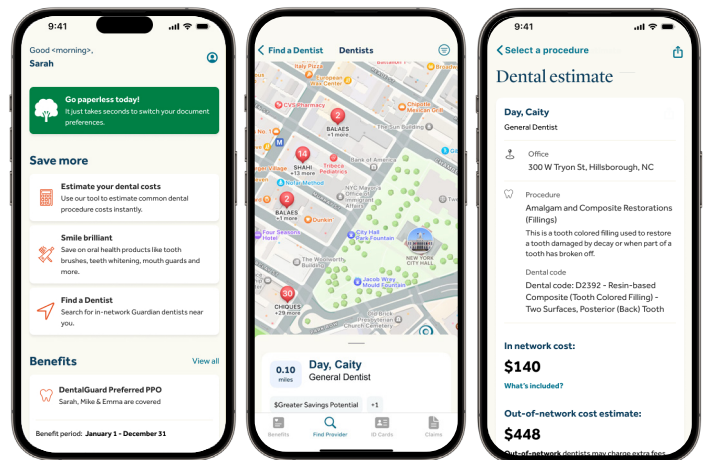

Taking the best possible care of your teeth can do so much more than brighten your smile. Good oral health is an essential part of your overall well-being,¹ and can impact how well you and your family members feel, think, and perform at work and beyond. That's why we're committed to helping make it easier for you to understand your dental benefits and quickly access the care you need.

Stay on top of your dental benefits from the palm of your hand with the Guardian app. See how much your plan has covered, including quick access to maximums and deductibles.

In addition to accessing your digital ID card, you can use the app to:

- **Find** an in-network dentist and save their details — members like you have enjoyed savings of up to 43%².
- **Estimate** the cost of care by procedure for you and your covered dependents, and view savings when you compare in-network vs. out-of-network costs.
- **Access** exclusive discounts on oral care products such as teeth whitening, electric toothbrushes and mouth guards.
- **Save** your preferred in-network dentist to easily go back to later.
- **Track** what claims have been paid and see what's still pending.
- And more!

On top of helping you save on dental care, your dental benefits open the door to help diagnose and prevent potentially serious health conditions sooner. Our dental app can help you stay on top of it all, with the information you need right in your pocket.
