

Digital ID cards for dental members

Advantages for digital ID cards

- No need to present a physical card to providers (only group number and employee ID is needed for verification of benefits)
- Immediate access to card – no delays in waiting for a physical card to be mailed or worry about misplacing it.
- Digital card is always the most current version and only a few clicks away via digital download or through Guardian's app
- In the event there is an individual employee need for a physical card, they can obtain one
